

■ Our oil & gas projects

SSCV Phu My Plant

■ As Subcontractor of **Southern Steel Corporation Vietnam**, Vivablast has erected more than 4,500 m³ of BS scaffolds towers to perform safely the required surface preparation and protective coating refurbishment works of their distillation vessel, oxygen bottle and oxygen pipeline station at their Phu My Plant. Vivablast's deep expertise of SSCV industry and operations requirements enable to achieve the best cooperation.

■ Our power generation projects

Phu My 2.2

■ **Mekong Energy Company** has selected Vivablast to provide the full service to supply & install the cold insulation system of their EKG Gas Station of Phu My 2.2 TPP. This maintenance Project has been safely executed by Vivablast during their Outage with Armacell cold insulation technology. This flexible cryogenic multi-layered system installed by Vivablast provides high thermal performance, reduces the risk of corrosion under insulation and prevents pipe sweating.

■ Our industrial plant construction projects

Phu My A IP

■ Vivablast professional BS scaffolding services, including the mobilization of our CITB-AST-MOGIT certified Scaffolders and Supervisor, have been delivered for the Branch of **Malaya – Vietnam Glass Ltd** for their furnace heat-up in My Xuan A Industrial Zone, Ba-Ria Vung Tau Province. Vivablast does meet the strictest safety requirements and regulation for all types of safe access solutions onshore and offshore, including scaffolding, rope access, and cherry pickers.

■ GreenBiz 2011 Event

Generator room

■ Vivablast has exhibited one of its green building solution at **Green Biz 2011 Event** at White Palace (HCMC): SpreFix Spray-On Insulation Technology. SpreFix's outstanding fire-protection, thermal & acoustic insulation & condensation control performance is suitable for modern generator sets rooms, ducting works & shipbuilding projects. SpreFix spray-on insulation is more efficient & cost-effective than conventional rockwool & glasswool boards.
