

› VIVABLAST MINING PROJECTS

- › Vivablast has provided combined services including as BS scaffolding, UHP water jet cleaning and coating refurbishment to a major mining company in North Vietnam during their periodic shutdown.
- › We provide safe cleaning of industrial contaminants such as: calcium oxide, monomer, polymer, styrene, coating chemicals, sulfur deposits...to all sectors.

› VIVABLAST OIL & GAS PROJECTS

- › Vivablast conducts extensive remedial works on installed equipment for the largest North Vietnam refinery.
- › We provide a wide range of coating and scaffolding services at site to support our clients reaching their deadlines.

› VIVABLAST SHIPBUILDING PROJECTS

- › Vivablast has been awarded by a leading shipbuilder to conduct all internal & external blasting and coating application works for Pontoons which will be exported overseas as part of a city infrastructure development.
- › Over 15,000 m2 will need to be completed in very tight schedule while meeting stringent inspection and international standards.

› VIVABLAST MANUFACTURING PROJECTS

- › Vivablast integrated blasting and painting facilities are being installed at a steel fabricator specialist factory.
- › The workshops are built within our customers' factories in order to fully integrate our operations into their manufacturing, quality & safety processes.
