

■ VIVABLAST INSPECTION PROJECT

■ **Vivablast** QA/QC engineers and certified **NACE III** inspector have performed a thorough survey to identify the level of corrosion and coating condition. As part of our expertise, we provide repair specification and provide necessary corrective solutions to repair the structure integrity.

■ VIVABLAST POWER PROJECT

■ **Vivablast** as a Power Generation specialty service provider, shall be completing successfully our shutdown services to a Major Power producer of Southern Vietnam region. Our services include Scaffolding, Insulation, Coating and several other specialist mechanical activities.

■ VIVABLAST VUNG TAU PROJECT

■ **Vivablast** with its expertise in coating application and solution for Jetty protection, has completed another challengeable project at Phu My Port. Since the water level rises while working and allow us for a partial day production; VB has chosen a special product designed for immediate exposure to water and curing under water.

■ VIVABLAST THAILAND PROJECT

■ **Vivablast Thailand** has been chosen by a manufacturing company, to carry out storage tank Internal Lining. For this specific containment, VB shall provide a high quality standards with the upmost maximum safety concern for confined space application.
