

■ VIVABLAST MANUFACTURING PROJECT

■ **Vivablast Vietnam** team has been mobilized to Beijing to perform painting work for the cosmetic revamp of a manufacturing car factory.

Our team worked round the clock to reach the milestone set by the project in total safety.

■ VIVABLAST MYANMAR PROJECT

■ **Vivablast Myanmar** is executing blasting and painting activities on jackets for one of the national key projects in Yangon.

Such work requires absolute compliance with quality, safety regulations and schedule. Vivablast is building reputation, with the ambition to become the leading anti-corrosion solutions provider in Myanmar.

■ VIVABLAST CIVIL PROJECT

■ **Vivablast Vietnam** was required to carry out cleaning work on polluted historic building in Ho Chi Minh City.

Vivablast used premium dry ice cleaning method for the entire surface treatment of this monument. CO2 Dry Ice cleaning method is a safe, effective, cost saving and most reliable in sensitive surface preparation projects.

■ VIVABLAST OIL & GAS PROJECT

■ **Vivablast** as exclusive distributor of **Belzona material in Vietnam** support the Oil & Gas and Power Industry to train, carry out repairs on their assets. During October, **Vivablast** sent our **Belzona** certified applicator to repair floating hoses during the third Vietnam Refinery shutdown. **Vivablast** combines products knowledge and experienced coating services
