

■ **VIVABLAST engineers OEM insulation system for steam turbine in North Vietnam**

■ Strong of our long year experience in OEM Thermal Insulation and personal protection applied to Power Generation with specialties in Gas and Steam Turbine, Valves and Piping.

VIVABLAST engineers have designed Insulation Jacketing system for Steam Turbine at a coal power station in North Vietnam. This is the third unit completed this year by our team. **VIVABLAST** proposed OEM Jacketing system improves turbine efficiency and minimizes the risk of machine tripping on the long run.

■ **VIVABLAST supports Sesame Oil farming development in Myanmar**

■ Myanmar growth fuels opportunities to develop farming activities for the locals. **VIVABLAST** apply latest HDPE liner technology to ensure sustainable and durable waste treatment for farming activities on the long term.

VIVABLAST would like to contribute with our versatile waste treatment solutions to prevent pollution from reaching alarming level.

Visit our website to know more about our environmental solution applied to your industry.

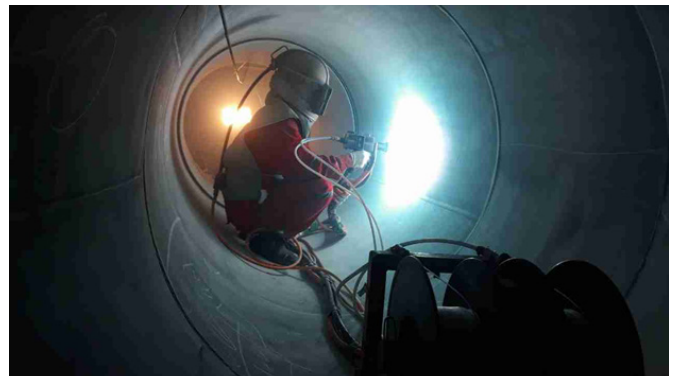

■ **VIVABLAST delivers mechanical service projects for South Vietnam Largest Power Station**

■ Capitalizing on our experience and development in mechanical maintenance applied to power generation. Our team has delivered mechanical service involving activities for boiler pressure parts, structural steel modification, and completed equipment refurbishment under a strict shutdown schedule.

VIVABLAST teams have demonstrated to our Client our professional dedication with a successful shutdown preparation and pro-active implementation phases after phases.

■ **VIVABLAST implements thermal spraying solution for Fertilizer Plant during annual shutdown**

■ Seasoned thermal spraying tradesman have completed internal pipe thermal spray coating in order to provide a suitable coating solution for a client asset subject to continuous high temperature and abrasion.

VIVABLAST implemented strictest HSE measures in regards to the confine space activity together with high pressure gas handling and hot works in full compliance to fertilizer HSE system shutdown rules.

Headquarters & Main Workshop

Street 2, Binh Chieu Industrial Zone, Thu Duc District, Ho Chi Minh City, Vietnam
