

RINGLOCK SCAFFOLDING:
SUCCESSFUL APPLICATION IN SITU

VIVABLAST scaffolding specialists efficiently implemented the versatile Ringlock technique during the short yearly outage of a Power Plant this month. Ringlock scaffolds are quick and easy to assemble as well as convenient to transport and store.

Using this technique to support the external wall coating works helped VIVABLAST team to finalize the job before the scheduled deadline and to exceed our client's expectations. ■

THE LAUNCH OF THE DUNG QUAT WORKSHOP:
COMMISSIONING COMPLETED

VIVABLAST has finalized the commissioning process of the new workshop in Dung Quat. We are happy to announce that it is now up and running. The workshop covers 25,000 square meters and is fully equipped to provide all the wide range of services that VIVABLAST specializes in.

VIVABLAST Branch Manager and Chairman visited the workshop to congratulate the team and to participate in the opening ceremony. ■

KICKOFF MEETING:
A KEY TO EFFICIENT PROJECT OUTSET

All projects that VIVABLAST executes traditionally start with a kickoff meeting. It is a constructive starting point when all concerned departments have the opportunity to clarify the scope of work and client's expectations; discuss the main objectives, set timelines and define key collaboration areas.

In our experience, an accurately run initial meeting will set off a project on the right foot and help to avoid mistakes, misunderstandings and consequent project delays in the future. ■

VIVABLAST TEAM:
COMMON PEOPLE, UNCOMMON RESULTS

Even though they say that the team is greater than the sum of its parts, in VIVABLAST we see our team members as unique personalities with a one-of-a-kind experience. Thanks to their irreplaceable knowledge, diligence and commitment to our goals we are able to grow, develop and prosper.

Each person in the team brings along his enthusiasm, skill and a smile. When people work together toward a common vision they can achieve extraordinary results. ■
